PROFILE

Junior AI/ML Engineer and Full-Stack Developer skilled in building scalable applications using Python, FastAPI, React, and Next.js. Experienced in deploying production systems on Microsoft Azure with Docker and CI/CD pipelines, and developing AI solutions using TensorFlow, OpenCV, and YOLOv5.

WORK EXPERIENCE

Junior ML engineer

Dec 2025 - Present

sampro license india private limited

Wakad, Pune

- Leading backend development for scalable web applications using Flask and Python.
- Designed and deployed production-grade applications on Microsoft Azure, including infrastructure setup, monitoring, and scaling.
- Implemented CI/CD pipelines to automate build, testing, and deployment processes, reducing manual effort and improving release speed.
- Collaborated with frontend developers using React and Next.js to deliver end-to-end features.
- Managed cloud resources, handled deployment issues, and ensured system reliability and uptime.
- Contributed to the development of the Smart Resume Platform, improving user experience and backend efficiency.

Research Intern — Cybersecurity & AI Systems

Feb-2024 to Jul-2024

DIA T-DRDO

Khadakwasla, Pune

- Developed a custom secure bootloader in Assembly integrated with TPM hardware to enable hardware-based trust and reduce OS-level vulnerabilities.
- Worked on low-level programming, TPM hashing, and AI-driven defense applications ensuring secure system initialization.

Software Intern

Aug-2021 to Sep-2021

Kasnet Technologies

Baramati, Pune

- Built a Python + JavaScript attendance system for data automation and visualization, integrated with database-driven reporting.
- Collaborated in an Agile team to test, debug, and document workflows.

PROJECTS

Crime Detection System — AI & Computer Vision [Link](#)

OpenCV, FastAPI, YOLOv5

- Developed a real-time AI-powered weapon detection system for CCTV surveillance using YOLOv5, enabling accurate detection of suspicious objects.
- Integrated OpenCV for video stream processing and frame-level analysis to ensure efficient detection in live feeds.
- Built high-performance backend APIs using FastAPI for handling detection results, alerts, and system communication.
- Implemented real-time alert mechanisms to notify authorities instantly upon detecting potential threats.
- Designed and maintained a logging system to store captured images and incident data for reporting and future analysis.
- Optimized detection pipeline for low latency and improved inference performance in continuous surveillance environments.

Smart Resume Platform [Link](#)

React.js,Next.js,Python,Flask

- Developed a full-stack resume builder platform offering 45+ customizable templates for users to create professional resumes efficiently.
- Built scalable backend services using Flask and Python to handle user data, template rendering, and API integration.
- Designed and integrated REST APIs for dynamic resume generation and template customization.
- Collaborated with frontend team working on React and Next.js for seamless user experience.
- Deployed and managed the complete application on Microsoft Azure, ensuring high availability and scalability.
- Implemented CI/CD pipelines and handled environment configuration for production deployment.
- Optimized backend performance and ensured secure handling of user data.

| SKILLS

Technical Skills	Python FastAPI React TensorFlow JavaScript SQL Bash
	Data Structures & Algorithms (DSA) Next.js Tailwind Node.js OpenCV YOLOv5 Pandas
	NumPy PostgreSQL MongoDB Docker Git Linux (Arch) Vercel Netlify CICD
	Github Actions Azure DevOps
Soft Skills	Problem Solving Leadership

| EDUCATION

B.E. in Artificial Intelligence and Machine Learning	Nov-2022 to Jun-2025
Savitribai Phule Pune University , Pune, India	
CGPA: 7.30	

Diploma in Information Technology	Jul-2019 to Oct-2022
SVPM's College of Engineering , Pune, India	
CGPA: 75.19%
